

RATES AVAILABLE UNDER THIS TARIFF

Rate CDS - Cogeneration Distribution Service (pp. 125-126)

Available to any customer who qualifies as a cogenerator under Section 210 of the Public Utility Regulatory Policies Act of 1978 (PURPA). Customer must demonstrate to the Company's satisfaction that qualifying cogeneration gas burning equipment will be installed and only gas used for cogeneration will be billed at the rate negotiated under this rate schedule. Service is available when such customer acquires its own gas and executes a contract with the Company for distribution service in accordance with all terms and conditions of such contract. Separate metering and piping to qualifying end use equipment will be required.

Service under this rate schedule shall not be available to a customer who is a Priority 1 Customer, as defined in the Service Limitations section of this tariff and is using gas to generate electricity for Essential Human Needs Use, as defined in the Service Limitations section of this tariff, shall be required to purchase Standby Service if an alternate fuel is not available to generate electricity to cover the electricity peak day requirement. (C)

Rate DGDS - Distributed Generation Distribution Service (pp. 137-138)

Available, at one location, for the distribution requirements of any commercial or industrial customer using distributed generation equipment such as reciprocating engines, gas turbines, microturbines, and fuel cells used for electrical power generation. Service is available when such customer executes a contract with the Company for a period mutually agreed to between the Company and the customer for distribution service in accordance with all terms and conditions of such contract. Provided that the Company's facilities are adequate to provide the requested service. Customer may not take service under any other rate schedule except Rate SS – Standby Service.

Rate GDS - Generation Distribution Service (pp. 127-128)

Available to any customer who uses gas to generate electricity for sale, either wholesale or retail; provided that such sale of electricity is subject to the regulatory jurisdiction of either the Pennsylvania Public Utility Commission or the Federal Energy Regulatory Commission. Service is available when such customer acquires its own gas and executes a contract with the Company for distribution service in accordance with all terms and conditions of such contract.

Rate LDS - Large Distribution Service (pp. 103-106)

Available to any commercial or industrial customer whose annual throughput requirement (determined under the customer charge provisions of Rate LDS) is 536,500 thm or greater, and who does not take service under any other rate schedule except Rate SS-Standby Service. (C)

Rate LGSS - Large General Sales Service (pp. 100-102)

This rate schedule is available, at one location, for the total requirements of any commercial or industrial customer whose purchase requirements are in excess of 64,380 thm, and who does not contract for distribution service. (C)

(C) Indicates Change

RATES AVAILABLE UNDER THIS TARIFF (Continued)

Rate MLDS - Main Line Distribution Service (pp. 111-114)

Available at one location, for the total requirements of a commercial or industrial customer when the Customer meets either one of the following qualifications:

- (a) the Customer has annual throughput requirements of not less than 268,250 thm and is connected directly through a dual-purpose meter to facilities of an Interstate pipeline supplier of the Company ("Class I MLS Customer"); or (C)
- (b) the Customer has annual throughput requirements of not less than 2,146,000 thm and there are two (2) miles or less of pipeline facilities of the Company connecting the Customer to facilities of an interstate pipeline supplier of the Company ("Class II MLS Customer"), (C)

and meets all of the following conditions:

- (a) Customer does not take service under any other rate schedule except Rate SS – Standby Service, and
- (b) Customer acquires its own gas and executes an applications and agreement with the Company as specified in the Rules Applicable to Distribution Service section of this Tariff, for a period of not less than one (1) year for distribution service in accordance with all terms and conditions of such contract.

Rate MLSS - Main Line Sales Service (pp. 107-110)

Available at one location, for the total requirements of a commercial or industrial customer when the Customer meets either one of the following qualifications:

- (a) the Customer has annual throughput requirements of not less than 268,250 thm and is connected directly through a dual-purpose meter to facilities of an Interstate pipeline supplier of the Company ("Class I MLSS Customer"); or
- (b) the Customer has annual throughput requirements of not less than 2,146,000 thm and there are two (2) miles or less of pipeline facilities of the Company connecting the Customer to facilities of an interstate pipeline supplier of the Company ("Class II MLSS Customer"). (C)

Rate NCS - Negotiated Contract Service (pp. 115-116)

Available to any commercial or industrial customer, at the Company's discretion, who meets the following qualifications:

- (a) The customer is not presently served by the Company and has projected throughput requirements of not less than 21,460 thm annually or is a current customer; and (C)
- (b) The customer gives the Company satisfactory proof that, absent service under this rate schedule, the customer's facilities or operations would not be constructed in the Company's operating territory, or that, absent service under this rate schedule, customer would install long-term alternate fuel facilities.
- (c) Customer does not take service under any other rate schedule except Rate SS – Standby Service.

RATES AVAILABLE UNDER THIS TARIFF (Continued)

Rate NGV - Natural Gas Vehicle Service (pp. 129-131)

This rate schedule is available for any customer for the use of natural gas directly in a natural gas vehicle (NGV). The customer to qualify must be the operator of a public fueling station or the owner/operator of a natural gas vehicle or fleet of vehicles who receives service at separately metered fueling facilities owned by the vehicle owner/operator for the exclusive use of the customer's vehicle(s).

Rate NSS - Negotiated Sales Service (pp. 117-121)

Available to any commercial or industrial customer who would not initiate service from the Company or would no longer take service from the Company but for the availability of service under Rate NSS, and whose annual throughput requirements exceed 21,460 thm. A customer with annual throughput requirements below 64,380 thm that is eligible for service under this rate schedule shall be deemed to meet the usage eligibility provisions for transportation service under Rate SGS. (C)

Rate PS - Propane Service (pp. 132-133)

The Company may from time to time, at its sole option, provide propane service to new customers requesting natural gas service in the Company's service territory where the extension of natural gas facilities is temporarily uneconomic but is anticipated to be economic within a (5) five year period and, absent this rate schedule, the customer would not request service from the Company.

Rate RDGDS - Residential Distributed Generation Distribution Service (pp. 84-85)

Available to any residential customer meeting the following conditions:

1. The customer does not take service under any other rate schedule.
2. The customer or group of customers have an aggregate annual demand of at least 53,650 thm or a minimum of 50 customers and in compliance with the aggregation provisions in the Rules Applicable to Distribution Service elects an NGS to provide natural gas commodity service. The gas supply for each aggregation must enter the Company's system at a city gate(s) used by the Company to serve the customers unless otherwise permitted by Columbia. (C)
3. Available, at one location, for the total requirements of any residential customer who operates distributed generation equipment such as reciprocating engines, gas turbines, and fuel cells used for electrical power generation for the customer's own use. The Customer must demonstrate to the Company's satisfaction that qualifying gas burning electric generation equipment has been installed.
4. The Company's facilities are adequate to provide the requested service.

Service is available when such customer(s) selects an NGS, and provides the Company with a 60-day notice.

RATES AVAILABLE UNDER THIS TARIFF (Continued)

Rate RDGSS - Residential Distributed Generation Sales Service (pp. 81-83)

Available, at one location, for the total requirements of any residential customer who operates distributed generation equipment such as reciprocating engines, gas turbines, and fuel cells used for electrical power generation for the customer's own use. The Customer must demonstrate to the Company's satisfaction that qualifying gas burning electric generation equipment has been installed. Provided, that the Company's facilities are adequate to provide the requested service.

Rate RDS - Residential Distribution Service (pp. 78-80)

This rate is available for a Residential customer or a group of Residential customers that has an aggregate annual demand of at least 53,650 thm or a minimum of 50 customers being served pursuant to the aggregation provisions of the Rules Applicable to Distribution Service. (C)

Rate RSS - Residential Sales Service (pp. 76-77)

This rate schedule is available, at one location, for the total requirements of any residential customer.

Rate SCD - Small Commercial Distribution (pp. 93-95)

This rate is available to any commercial customer that: (1) is eligible for Choice Service; (2) has a historic throughput less than or equal to 64,380 thm; annually; (3) is not served under any other schedule, (4) the customer or group of customers have an aggregate annual demand of at least 53,650 thm or a minimum of 50 customers and in compliance with the aggregation provisions in the Rules Applicable to Distribution Service elects an NGS of natural gas commodity service for a one year period. (C)

Rate SDS-Small Distribution Service (pp. 96-99)

Available to any commercial or industrial customer whose annual throughput requirements (including sales and distribution) exceed 64,380 thm, who does not receive service under any other rate schedule except Rate SS-Standby Service, and whose annual throughput (as determined under Customer Charge provisions of Rate SDS) is less than 536,500 thm. (C)

Rate SDSS - Supplier Default Sales Service (pp. 122-123)

Available to any commercial or industrial customer with annual throughput requirements of 6,438 thm or greater, and whose natural gas supplier has defaulted according to the provisions of the Default (Other than Slamming) By the NGS section of the Rules Applicable to Distribution Service of this tariff, and who at the time of the default was receiving General Distribution Service under Rate SGDS-Small General Distribution Service, Rate SDS – Small Distribution Service, Rate LDS – Large Distribution Service, Rate MLDS – Main Line Distribution Service, Rate CDS – Cogeneration Distribution Service or Rate GDS – Generation Distribution Service. (C)

(C) Indicates Change

RATES AVAILABLE UNDER THIS TARIFF (Continued)

Rate SGDS - Small General Distribution Service (pp. 89-92)

Available, at one location, for the total requirements of any commercial or industrial customer meeting all of the following conditions:

1. The Customer's total annual throughput requirements, as determined under the Customer Charge provisions are less than 64,380 thms annually. (C)
2. The Customer does not take service under any other rate schedule except Rate SS – Standby Service.
3. Customer acquires its own gas and executes an application and agreement with the Company, as specified in the Rules Applicable to Distribution Service section of this Tariff, for a period of not less than one (1) year for distribution service in accordance with all terms and conditions of such contract.
4. The customer is a member of an aggregation group pursuant to the provisions of the Rules Applicable to Distribution Service.
5. Priority One customers, as defined in the Service Limitations section of this tariff, must buy distribution service at the Priority One distribution rate, which includes recovery of purchased gas demand costs pursuant to the Purchased Gas Cost Rider as set forth in this tariff. All other SGDS customers wishing to contract for standby service may execute a contract for service under Rate SS - Standby Service. (C)
6. There is an annual enrollment window for accounts transferring from Rate Schedule SCD to Rate Schedule SGDS. Notice of intent to switch from Rate Schedule SCD to Rate Schedule SGDS is due January 2nd of each year to be effective the following April 1st.

Rate SGSS - Small General Sales Service (pp. 86-88)

This rate schedule is available, at one location, for the total requirements of any commercial or industrial customer whose total throughput requirements are less than 64,380 thms annually and who does not contract for distribution service. (C)

Rate SS - Standby Service (pp. 134-136)

Available to any qualified customer receiving General Distribution Service or Negotiated Sales Service who executes a contract with the Company for service under this rate schedule for a period of not less than one (1) year.
