

NEW SMALL COMMERCIAL REBATE PROGRAM!

Get rewarded for being energy efficient

Make your next upgrade count.

If your small business is replacing older, less efficient natural gas equipment, our new program offers rebates when you upgrade to qualifying energy-saving equipment or measures. It's a simple way to lower upfront upgrade costs while helping your business use energy more efficiently.

Go to **ColumbiaGasPA.com/CommercialRebates2026** or **scan the QR code** to learn more, check qualified equipment/measures, review eligibility requirements and start your rebate application today.

Thinking about upgrading your system?

Take a closer look before you upgrade

Our new small commercial rebate program is available to **commercial customers who pay the Energy Efficiency Rider**. You can check if your business does by reviewing the "Detail Charges" section on your bill.

Go to ColumbiaGasPA.com/CommercialRebates2026 or scan the QR code to learn more, check qualified equipment/measures, review eligibility requirements and start your rebate application today.

If you are unable to access the program site, please email CPArebates@nisource.com for assistance.
